

MIRABEAU

For sale Monaco

As you might be aware of, part of the future economic outlook of Monaco lays in the new Extension of the Territory of the Principality onto the water. This great project is supposed to be completed in about 6-7 years. We actually have a 165 square meter apartment for sale, that will be one of the few properties in the prestigious MIRABEAU - Residence that shall very much benefit from this extension, because it's located in a way, that's going to have a beautiful view over the future parkland, up to Cap Martin (please see below).
